

Yenson Umaña Solano

Senior AI Solution Architect

Costa Rica • yen21000@gmail.com • yenus.dev • <https://www.linkedin.com/in/yenus/> • <https://github.com/Yen-US>

SUMMARY

AI Solution Architect specializing in agentic systems and Azure migrations. Sole AI advisor for Microsoft for Startups in LATAM. Early adopter of production AI, shipping since October 2022. Founder of Presencia Studio, offering advisory services to non-conflicting clients.

CORE COMPETENCIES

AI Architecture • Agentic Systems • Azure Migrations • Cloud Solutions • AI Productionization • Technical Advisory • Public Speaking • Leadership • Mentorship • Customer Focus

EXPERIENCE

Senior AI Solution Architect — Microsoft (via Accenture)

Remote • May 2024 – Present

- Advised Microsoft for Startups globally on architecture, migrations, and agentic systems
- Led full Vercel + GCP to Azure migration in 1 week using Claude Code and MCP
- Delivered enablement sessions on Azure AI and LLM productionization
- Hands-on with Azure AI Foundry, Azure Agent Dev Kit, and OpenAI Responses API

Founder — Presencia Studio

Remote • 2025 – Present

- Developed end-to-end brand experiences including NFC cards and digital profiles
- Launched MVP on Next.js 16, Supabase, and Vercel with Apple Wallet integration
- Created custom brand experiences like Junior Rodríguez NFC-enabled paintings

Full Stack Software Engineer — Wind River

Remote • Oct 2024 – Present

- Architected cloud systems using Angular, Vue.js, and Golang on PostgreSQL
- Led AI integration initiatives to enhance developer productivity
- Designed scalable microservices with Docker and GraphQL

Solutions Development Engineer — OneReach.ai

Remote • Oct 2022 – Apr 2024

- Built production AI systems before ChatGPT launched
- Developed intelligent automations for triage and first-response
- Gained expertise in conversational AI and agent orchestration

Advanced Technical Support Engineer — Wrike (part of Citrix)

Remote • Feb 2022 – Apr 2023

- Supported advanced enterprise features like REST API and SAML/SSO
- Resolved complex workflow and permissions issues
- Collaborated on root-cause analysis for integration bugs

SELECTED PROJECTS

Full Vercel + GCP to Azure Migration — Led a 1-week migration for a YC-backed startup, utilizing Claude Code and Azure Agent Dev Kit to ensure zero downtime.

Azure, Claude Code, MCP, Azure Agent Dev Kit

Junior Rodríguez NFC-enabled Painting Series — Created an NFC-enabled painting series that integrates physical art with digital experiences, enhancing the collector's journey.

NFC, Next.js, Supabase, Vercel

CERTIFICATIONS

- AI-102: Azure AI Engineer Associate

- AZ-204: Azure Developer Associate
- Agile Foundations
- Project Management
- Agile Project Leadership

EDUCATION

Computer Engineering (Licentiate) — Tecnológico de Costa Rica (On Hold)
