

Yenson Umaña Solano

Senior AI Solution Architect

Costa Rica • yen21000@gmail.com • yenus.dev • <https://www.linkedin.com/in/yenus/> • <https://github.com/Yen-US>

SUMMARY

AI Solution Architect specializing in agentic systems and Azure migrations. Senior advisor for Microsoft for Startups, leading architecture reviews, and productionizing AI since October 2022. Founder of Presencia Studio, offering advisory services to non-conflicting clients. Expertise in shipping AI solutions and optimizing cloud architectures.

CORE COMPETENCIES

AI Architecture • Agentic Systems • Azure Migrations • Production AI • Cloud Architecture • AI Advisory • Agent Frameworks • CI/CD • Cost Optimization • Public Speaking

EXPERIENCE

Senior AI Solution Architect — Microsoft (via Accenture)

Remote • May 2024 – Present

- Led architecture reviews and agentic system design for Microsoft for Startups worldwide
- Directed technical strategy for teams of 3 to 15 engineers on AI stack and migration paths
- Executed a full Vercel + GCP to Azure migration in 1 week using Claude Code and MCP
- Delivered enablement sessions on Azure AI and LLM productionization
- Utilized Azure AI Foundry, Azure Agent Dev Kit, and OpenAI Responses API in production

Founder — Presencia Studio

Remote • 2025 – Present

- Developed a productized catalog of NFC cards and digital brand experiences
- Launched MVP on Next.js 16 with Supabase and Vercel integration
- Created custom brand experiences like the Junior Rodríguez NFC painting series

Full Stack Software Engineer — Wind River

Remote • Oct 2024 – Present

- Architected cloud systems with Angular, Vue.js, and Golang on PostgreSQL
- Led AI integration initiatives to enhance developer productivity
- Designed scalable microservices using Docker and GraphQL

Solutions Development Engineer — OneReach.ai

Remote • Oct 2022 – Apr 2024

- Built production AI solutions before the launch of ChatGPT
- Developed intelligent automations for triage and after-hours coverage
- Gained first exposure to conversational AI and agent orchestration

SELECTED PROJECTS

Vercel + GCP to Azure Migration — Executed a full-stack migration for a YC-backed startup, leveraging Claude Code and Azure Agent Dev Kit to ensure zero downtime.

Azure, Claude Code, MCP

Junior Rodríguez NFC Painting Series — Designed an NFC-enabled painting series that integrates physical art with digital experiences, enhancing collector engagement.

NFC, Next.js, Vercel

Eval-Gated Model Routing — Implemented a CI eval pipeline to optimize model routing, reducing inference costs without compromising quality.

CI/CD, LLM, Azure AI

CERTIFICATIONS

- AI-102: Azure AI Engineer Associate

- AZ-204: Azure Developer Associate
- Agile Foundations
- Project Management
- Agile Project Leadership

EDUCATION

Computer Engineering (Licentiate) — Tecnológico de Costa Rica (On Hold)
